EDUCATION

Brigham Young University April 2025
B.S. Economics (Major), Mathematics (Minor)

- GPA: 3.82/4.00
- Coursework: Macroeconomics, Microeconomics, Econometrics, Machine Learning for Economics, Graduate Microeconomics I & II, Graduate Macroeconomics

RESEARCH POSITIONS

Pre-Doctoral Research Professional 2025 – Present
University of Chicago Booth School of Business
Supervisors: Kilian Huber (University of Chicago) and Ludwig Straub (Harvard University)

- Process large-scale payment provider transaction microdata using Hive and PySpark, working with hundreds of millions of consumer-level observations.
- Resolve geographic location attribution problems in transaction data using economic intuition and spatial heuristics.
- Build geographically precise, transaction-level datasets for Huber and Straub's U.S. disaggregated economic accounts.
- Built the replication package for Andersen et al. (2026, Quarterly Journal of Economics), including running and verifying the heterogeneous agent New Keynesian (HANK) model calibration.

Research Assistant to Prof. Scott Condie 2023 – 2025
Brigham Young University, Department of Economics

- Created a dataset of exchange order-book snapshots via Python API calls; managed the data in a database.
- Cleaned, visualized, and summarized the data; performed a literature review.
- Wrote an executive summary of the findings in LaTeX and helped move the project forward.

SOFTWARE AND PROJECTS

high-dimensional-instrumental-variables (open-source Python package) github.com/hyattjon

- Coauthored, with Jacob Hutchings (Duke University), a package implementing jackknife and weak-instrument IV estimators (JIVE, UJIVE, and others).

Circular Flow (interactive county-level spending model) jonathanfhyatt.com/circular-flow

- Built a share-based county circular flow model for the U.S., as part of Huber and Straub's project, with tax and import leakages, producing county income multipliers and centrality measures.

TEACHING EXPERIENCE

Teaching Assistant – Machine Learning for Economics 2024 – 2025
Prof. Brigham Frandsen, Brigham Young University

- Taught a class session on Python basics, held office hours and review sessions, and migrated course materials to GitHub.

HONORS AND AWARDS

Dean's List, Economics 2023
Alvina Soffel Barrett Scholarship (merit-based) 2023
Richard and Patricia Clyde Scholarship (merit-based) 2023
Regents Scholarship, State of Utah (merit-based) 2019

SKILLS

Programming: Python, PySpark, Stata, LaTeX, Hive (HQL), Front-End Development (HTML/CSS/JS)
Data: Large-scale transaction microdata, SQL, Tableau, GitHub
Languages: English (native), Spanish (fluent; passed 16-credit challenge exam at BYU)

SERVICE AND LEADERSHIP

Volunteer Missionary, The Church of Jesus Christ of Latter-day Saints 2019 – 2021
Argentina Comodoro Rivadavia Mission / Washington D.C. South Mission

- Led a 10-person team in meeting key indicators; designed data-tracking tools for pipeline management.

Teacher, Missionary Training Center, The Church of Jesus Christ of Latter-day Saints 2021 – 2023

- Trained senior missionaries on finance, housing, and core curriculum.

Staff, Timberline National Youth Leadership Training, Boy Scouts of America 2017 – 2019
Eagle Scout (2017)

Economics graduate-studies club, BYU

- Cofounded a club for economics students interested in pursuing graduate studies.
